

# LDS Scripture *Rock*

In early summer 2013 the CES department announced that the scripture mastery verses would be changing for the 2013/14 school year. The changes affected each of the standard works and in most cases roughly 40% of the original 25 scripture mastery verses changed to different verses. At some point I would like to write and record new songs for the additional scripture mastery verses but I do not anticipate having these completed during 2013. The effort and cost to write and record new scripture mastery songs is not insignificant (it took me several years to complete the four standard works.) Effective immediately, the price of LDS Scripture Rock products will be reduced by 40% on [www.ldsscripturerock.com](http://www.ldsscripturerock.com) to reflect the changed verses. The existing songs are still applicable for quite a number of the scripture mastery verses and so it is my hope that LDS Scripture Rock continues to be used by teachers and students. I have received countless emails from students and teachers who have experienced first hand the powerful way in which LDS Scripture Rock helps students memorize Scripture Mastery. It is a fun way to vary teaching styles and offers a different approach to committing the scriptures to memory.

Stay tuned but for now please enjoy the discounted price!
